

Setting Up Application Environment

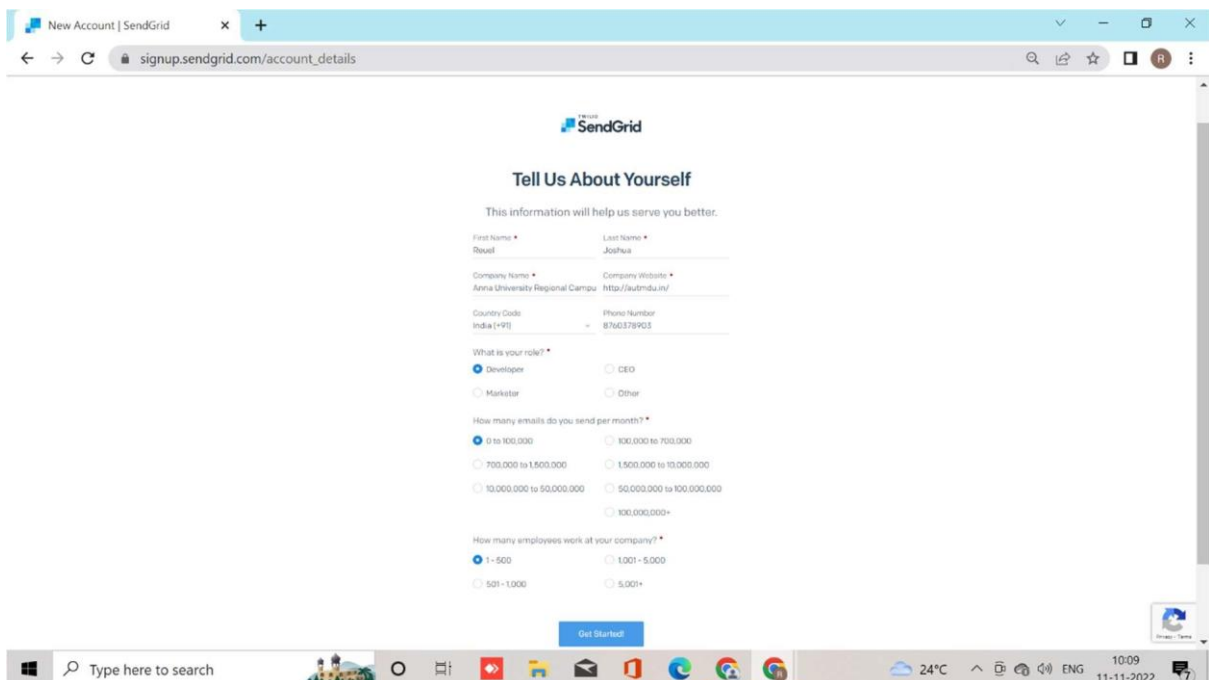

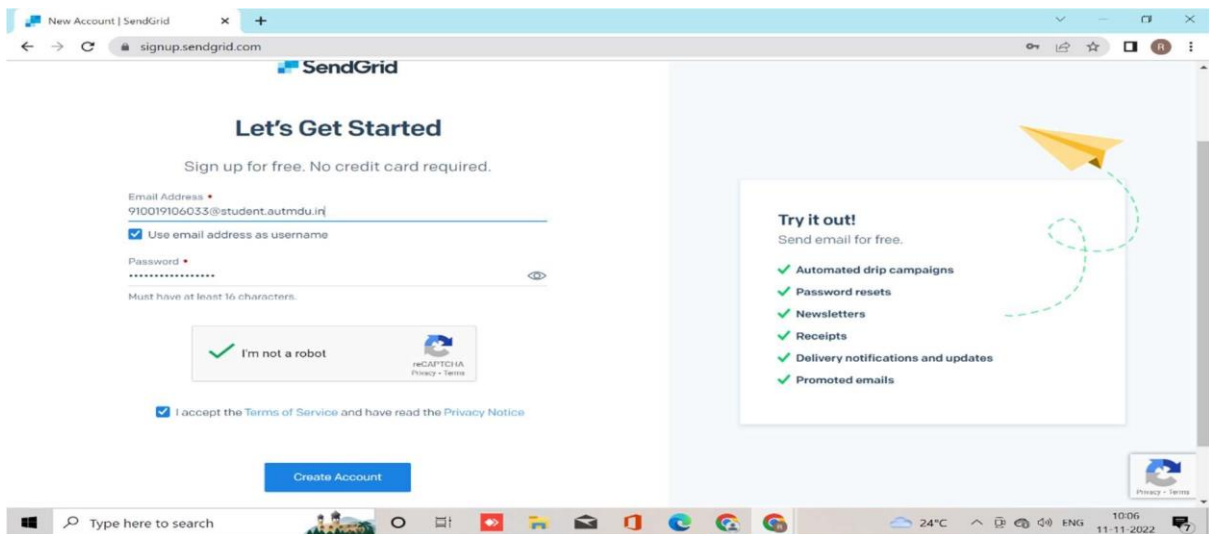

Create An Account In Sendgrid

Date	06/11/2022
Team Id	PNT2022TMID15605
Project Name	Plasma Donor Application
Maximum Marks	4 Marks

Step-1: Navigate to <https://sendgrid.com/>

Step-2: Click on “Start for free” and register by entering the details

Step-3: Once registered, Complete Two-factor Authentication and get access to Sendgrid Dashboard

The screenshot shows the SendGrid dashboard in a web browser. The browser's address bar displays 'app.sendgrid.com/guide'. The dashboard is personalized for 'Reuel Joshua'. On the left, a sidebar menu lists various features: Dashboard, Email API, Marketing, Design Library, Stats, Activity, Suppressions, and Settings. Below the menu, there's a 'Twilio SMS' link and a 'REPUTATION 100%' indicator. The main content area has a 'Welcome, Reuel!' message with a sub-header 'To get up and running quickly, please follow the steps outlined below.' Below this is a blue banner that says 'Send your first emails with Twilio SendGrid'. The primary task is 'Create a sender identity', which includes instructions on how to create a sender identity and a button labeled 'Create a Single Sender'. To the right of the instructions is a diagram showing an email header with 'Your Business' as the sender. At the bottom of the main content area, there's a section titled 'Send your first email' with a note: 'Please create a sender identity before sending your first email.' The Windows taskbar at the bottom shows the search bar, task view, and several open applications, along with system information like temperature (24°C) and date (11-11-2022).

Welcome, Reuel!

To get up and running quickly, please follow the steps outlined below.

Send your first emails with Twilio SendGrid

Create a sender identity

Before sending email, you'll need to create a sender identity. There are [two ways](#) to do this, but we recommend creating a Single Sender to get set up quickly and test your email integration.

Create a Single Sender

Authenticate a domain instead

Your sender identity is the "from" email address your recipients will see in their inbox. [Learn more](#) about this.

Your Business -> jane.doe@your_business.com

Send your first email

Please create a sender identity before sending your first email.
